Product Number: 42

HW Chlorinated Rubber Coating

Description:

This is a chlorinated rubber top coat for use over HW02E in areas of high humidity.

Coverage:

Approximately 8 - 10 m² per litre per coat. Two coats required.

Preparation and Application:

All surfaces should be clean, dry and free from contamination.

HW CRC is ready for use and does not need thinning. Stir well before application. The result is dependent on the condition of the substrate and temperature of application.

Drying times:

Touch dry – 30 to 60 minutes
Recoat - a minimum of 4 to 6 hours when sprayed, 14 to 16 hours if applied by brush or roller
Hard dry – 24 hours

Tools and Storage:

Clean tools and spillages immediately with white spirit

Keep containers in a dry, cool, well ventilated space away from heat. Containers must be kept tightly closed and stored at a minimum temperature of 5°C and a maximum temperature of 35°C.

Precautions:

- Ensure good ventilation during application and drying. Do not inhale vapour or spray mist
- Avoid contact with skin and eyes. Wear suitable protective clothing including gloves and eye/face protection
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- After contact with skin, wash immediately with plenty of soap and water or a recognised skin cleaner. Do not use solvent or thinners.
- If swallowed seek medical advice immediately.
- Keep out of the reach of children.
- Dispose of this material and container only to a waste collection point dealing in hazardous or special waste. Avoid release to the environment.
