

# APPLICATION DATA SHEET

**ENVIROGRAF®**

AP084-WALLPAPER PASTE-02-2019

## Product Number: 84 Ready Mixed Wallpaper Paste

### **Description:**

A low viscosity polymer adhesive formulated for hanging luxury wall covering. This product will prevent the wallpaper from burning.

### **Preparation:**

Surfaces should be clean, dry, sound and free of dust and mould. Absorbent surfaces can be primed with Stabond. Non-absorbent surfaces should be roughened to provide a key.

### **Application:**

Please refer to wallcovering manufacturers roll label for specific instructions.

Apply the adhesive to the back of the wall covering (unless instructions given by the wallcovering manufacturer state otherwise), and hang in the normal method smoothing out with a soft cloth. Remove any excess adhesive.

Tools may be cleaned in warm soapy water.

NOTE: DO NOT THIN THE ADHESIVE.

### **Storage:**

Six months in unopened original packaging.

Storage temperature: +5°C to +30°C. Avoid extremes of temperature and protect from frost.
