Product Number: 86

Fireproof Coating for Slabs

Description

A white intumescent coating for application to RW6 rock fibre slabs and non-fibrous slabs (as applied to Envirograf® Products 4 and 5). Supplied in 1 litre, 2½ litres, and 5 litres (other quantities available).

Application

Can be brush or trowel applied.
Joints can be sealed using Slab Coat in a mastic cartridge.
Tools can be cleaned in warm water.

Use

Apply to either high density RW6 rock fibre slabs or Envirograf® Product 41 (high density fireproof sponge) to provide extra fire protection.
