

Product Number: 98

Door Stop for Acoustic, Draught & Smoke Protection

Description:

A brown or white plastic door stop including a smoke seal to replace existing wooden door stops. Can be fitted with acoustic seals which also serve as draught and smoke seals.

Application:

Remove the backing paper from the seal, position the seal and fix. Finish the fixing with panel pins, securing each end and at 300mm intervals.

Used as a surface-mounted door stop. The standard smoke seal supplied is a 5mm brush. Rubber seals may also be used (see technical data sheet).
