Product Number: 105

EP/CP/P PRIMER

Description:

EP/CP/P adhesion primer is a water-based clear primer to apply over existing painted surfaces before applying EP/CP particularly where there is distemper, dirt or dust.

Application & coverage:

EP/CP/P Primer can be applied by brush or roller. Coverage is 10-12m² per litre.

Note: It is important to ensure the moisture content of the wood substrate is below 17% before application.

After use & storage:

Use warm water to clean tools.
