AP111-01-2019

Product Number: 111 Coated Ceramic Quilt for Steel

Description:

A durable intumescent quilt designed for fire protection around angled steel, RSJs, steel tubes, trunking, ventilation ducting and other steel items. The Coated Ceramic Quilt is available in 6mm or 9mm thicknesses and available in 50mm, 75mm, 100mm, 150mm and 1220mm widths.

Application:

Wrap the quilt around the items needing protection and affix using Envirograf® Product 46 (IA Adhesive), overlaps must be 50mm wide and secured with further adhesive, and secure with galvanised wire over the 50mm overlapped ends to finish. The Coated Ceramic Quilt must be overlapped 50mm at walls or joints.
