

APPLICATION DATA SHEET

ENVIROGRAF®

AP123-08-2015

Product Number: 123 Protection for Thatch & Roofing

Description:

Product 123 is an impregnated glass cloth giving up to 81 minutes fire protection and 16 minutes insulation; meeting BS 476 part 20/22 1987 and giving A Rating as a non-combustible product that will not hold a flame.

Product 123 is a breathable product which, once affected by flame, seals completely forming a complete barrier.

Application:

Can be fitted vertically or horizontally. This product can be overlapped by 30mm; Envirograf® IA adhesive must be used to adhere overlapping joints.

Product 123 can be used over roofs as a roof fire-curtain or fitted internally under trusses for protection from internal to external in a fire.
