

Product Number: 33

### Intumescent toilet / bathroom ventilation outlet protection

#### DESCRIPTION

Intumescent protection for both ceiling and wall ventilation outlets. Can be easily installed in about four minutes. Used with outlets which connect to toilet/bathroom ventilation fans.

Typically supplied as two flat foiled strips with self-adhesive backing strip. Easily curved to fit inside PVC pipes (see Application Data Sheet). The internal linings are non-clogging and leave 90% free ventilation area.
