

Product Number: 77

Intumescent Glazing Strips

Description:

A 2mm thick compressible intumescent strip, coloured black, brown, grey, red, and white, with self-adhesive tape backing, supplied in 10m long rolls. Used in steel doors, wood doors, and partitioning. The strips are fitted to beads each side of the fire-rated glazing. Although the seal is 2mm thick, it will compress to ½mm and this will not affect its performance.
