

Product Number: 118

Animal Door Flap Protection

Description:

Your standard animal door flap (not supplied) fits into our metal frame unit. Standard finishes are brown, white or grey. The inside of the metal unit has a drop curtain held by a thermal cut-out which once the temperature or the cat flap reaches 70°C the curtain drops giving 60 minutes fire protection. Please Note: Product 118 Animal Door Flap Protection is not suitable for use with aluminium animal door flap units.

Use:

For fire-rated doors in apartments and houses. In a fire, the curtain will drop and maintain the integrity of the fire door. This Envirograf® product is easy to fit.
