AP030-ACOUSTIC-03-2020

Product Number: 30 Intumescent Gaskets Acoustic & Fire Protection For Standard Metal Boxes SPG/APS, DPG/APD, DPG/K1N & CBG/AP

Description:

An Intumescent gasket to adhere inside the metal box consisting of acoustic sponge and gasket with double sided tape for easy application. Can have holes cut into the gaskets to accommodate tubes and cables. For both single and double boxes, with larger gasket for cooker boxes etc. Double sided tape on the back to adhere to the inside of the metal box. The acoustic sponge gasket has corners cut to allow quick and easy application into the electrical box.

Application Instructions:

1 Insert the metal box into the wall.

2 Peel off the protective tape.

3 Insert the gasket and press firmly to attach to the box.

4 Cut the sponge around the cable.

5 Job done. You now have fully fire and acoustic protected metal box.
