

Product Number: 147

Floor Fire Coat (FFC)
System for Wood Floors/Stairs

Description:

A hard wearing semi-gloss top coating for use on wooden floors or stairways. Used in conjunction with Envirograf® Product 42 HW01 (white or coloured) for 30/60 minutes fire protection or in conjunction with Envirograf® Product 92 ES/VFR system (clear, white or coloured) for Class 0 / Class 1 / SBI requirements.

Use:

FFC has been specifically designed for all floor areas, including care homes, retail areas, hospitals, schools, log cabins and all industrial floor areas. The FFC system offers a high impact surface fire protection coating that satisfies fire safety requirements specific to industrial plant locations.

Supply:

FFC is available in clear satin finish and in white or a range of coloured satin finishes. Special colours can be supplied on request.

Available in 1, 2½ and 5 litres

Note: Some colours may only be available in 5 litres
